Art Unit: 1623

DETAILED ACTION

The amendments are not entered because they present new limitations with regard to patient populations and mode of administration that have not been previously considered. With regard to the obvious-type double patenting rejection, MPEP 804 allows Applicant to hold in abeyance the filing of a terminal disclaimer until such time that allowable subject matter is identified. It does not allow for Applicant to defer a *response* to the rejection, either a substantive traversal or an indication of willingness to file a terminal disclaimer upon determination of allowable subject matter. From Applicant's statements at pp. 8-9 of the response, it appears that Applicant is stating a willingness to do the latter.
